- Foundations of user experience design (Coursera)
- Graphic design masterclass (udemy)
- Web and mobile design UI-UX, Figma, +more (udemy)

## PROFILE

A design professional with a keen eye for detail and a focus on integrating emerging technologies into the design process. I have a strong ability to communicate and develop solutions for any design challenge, and I'm a team player who is always eager to learn new things.

## WORK EXPERIENCE

### • User Experience Engineering Analyst

Accenture (1 Sep 2023 - Present)

- Worked on projects within Accenture GenWizard (web-based generative AI tool), where I contributed to refining user journeys and delivering design solutions tailored to complex business requirements.

## INTERNSHIP EXPERIENCE

### • XR design intern

Accenture (4 Months)

- My responsibilities included generating ideas for Accenture's metaverse world, analyzing user experiences, and creating 3D assets.

### • Industrial design intern

Nuance Studio (2 Months)

- Conceptualized, designed, and prototyped home décor products, and created a range of graphic design content. Gained hands-on experience with 3D printers and collaborated with industry professionals.

## EDUCATION

### • PES University (2019 - 2023)

Bachelor of Design  
Bangalore, India.

### • NITTE International School (2017 - 2019)

Pre- university  
Bangalore, India.
